EXPO 2030 RIYADH SAUDI ARABIA

SPEAK UP · USER GUIDE

Speak Up

How to submit, review and investigate reports in Jira Service Management

DRAFT · SANDBOX

Item	Detail
Document	Speak Up – User Guide
Version	1.2 (draft)
Date	21 October 2026
Prepared by	Doaa Mokhtar
Client	Expo 2030 Riyadh Company (ERC)
Environment	Sandbox (erc-sd-sandbox.atlassian.net)
Status	Draft – to be updated with live ERC data before release

Contents

1. About the portal 3
2. How to submit a report 3
3. What happens after you submit 4
4. For the Compliance Manager 4
5. For investigation teams 6
6. Groups: who sees what and who can do what 6
7. Service levels and escalation 8

Right-click the list and choose Update Field if page numbers are missing.

> **DRAFT.** This guide is based on the sandbox environment (erc-sd-sandbox). Links, groups and screenshots will be updated with the live ERC data before release.

1. About the portal

The Speak Up portal lets anyone report misconduct at ERC without signing in and without giving their name. Every report is classified first by the Compliance Manager, then investigated by the team responsible for that type of concern.

- **Anonymous by default.** The email field is pre-filled with Anonymous@Anonymous.com. Leave it as it is to stay anonymous.
- **Confidential.** Only the Compliance team and the team assigned to investigate can see a report. Other staff, and other investigation teams, cannot.
- **Optional contact.** A reporter who wants to be contacted can leave a phone number; nothing else identifies them.

Who	Section to read
Anyone reporting a concern	2. How to submit a report
Compliance Manager (GRC-Compliance)	4. For the Compliance Manager
Investigation teams	5. For investigation teams
Head of Compliance (HO-Compliance)	7. Service levels and escalation

2. How to submit a report

Anyone can submit a report in about two minutes, with no account and no sign-in.

1. Open the reporting form: https://erc-sd-sandbox.atlassian.net/helpcenter/SpeakUp/portal/169/group/274/create/474?email=Anonymous%40Anonymous.com
    a. Use this exact link. Opening the portal from its home page leaves the email field empty.
2. **Email confirmation to** is already filled with Anonymous@Anonymous.com. Leave it to stay anonymous, or replace it with your own email.
3. **Summary | الموضوع:** a short title, for example "Supplier invoice inflated".
4. **Phone number | رقم الجوال** (optional): only if you want the Compliance team to be able to contact you.
5. **What are the details of your request?** What happened, when, where and who was involved.
6. **Attachments** (optional): documents or photos that support the report.
7. Click **Send**. A reference number such as WB-36 is shown. Keep it if you want to refer to your report later.

> **Screenshot to add:** the reporting form with the email pre-filled, and the confirmation screen after Send.

3. What happens after you submit

Every report gets two decisions, each within 2 working days: the Compliance Manager decides whether it is investigated, then the assigned team approves or rejects the investigation.

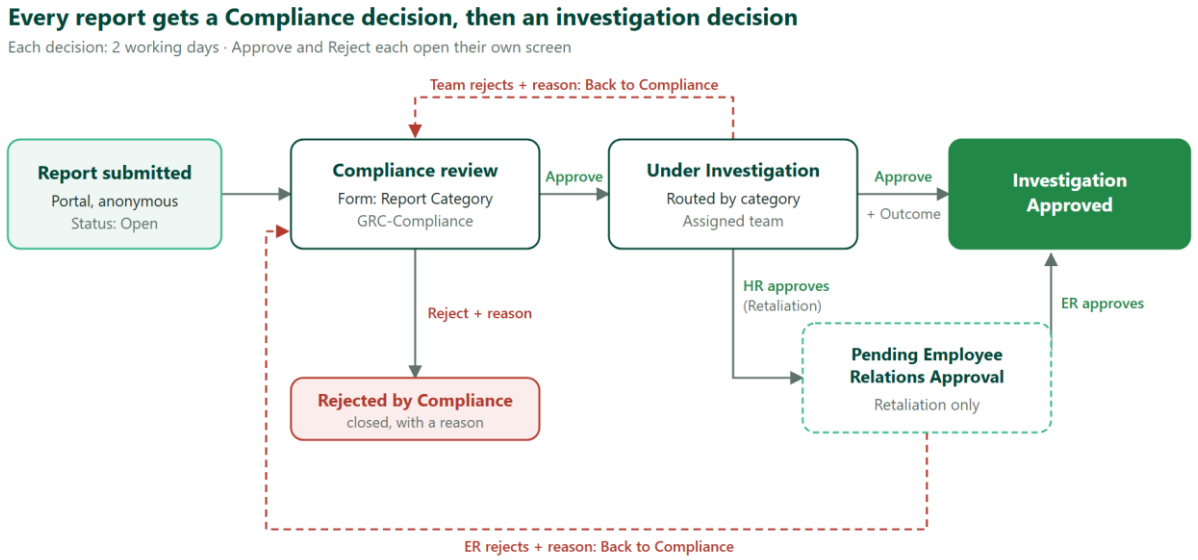

Figure 1 – Report workflow

- **Approve** and **Reject** are buttons next to the report status. Each opens its own screen: Approve asks for the Investigation Outcome, Reject asks for a Rejection Reason.
- **Retaliation reports** need two approvals: Human Resources first, then Employee Relations.
- A team that rejects sends the report **Back to Compliance** with its reason; the Compliance Manager can correct the classification and approve again, or close it.

4. For the Compliance Manager

The Compliance Manager classifies every new report and decides whether it goes to investigation. You have 2 working days. You receive an email for every new report.

1. Open the queue and open a report with status **Open** (or **Back to Compliance**).
2. Under **Attached forms**, open the **Compliance Approval** form. It is internal: the reporter never sees it.

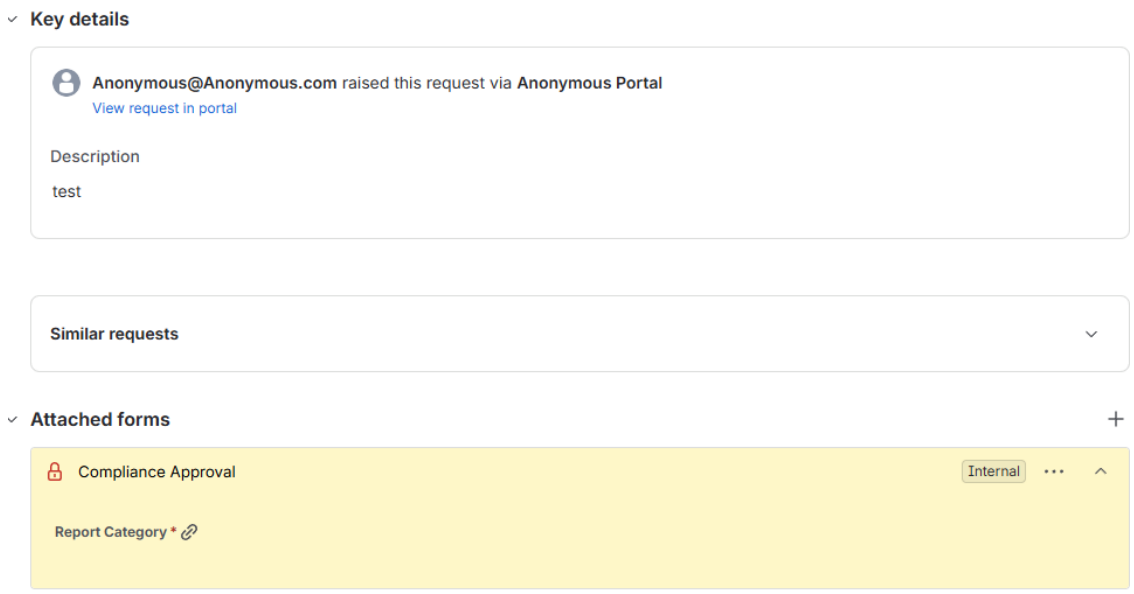

Figure 2 – The Compliance Approval form on a new report, not yet submitted

3. Choose **Report Category**.
    a. If you choose **Other**, a second question appears: **Investigating Function**. Choose which team investigates. The form will not submit without it.
4. Click **Submit** on the form. Within a few seconds Investigating Function is filled in from the agreed table.

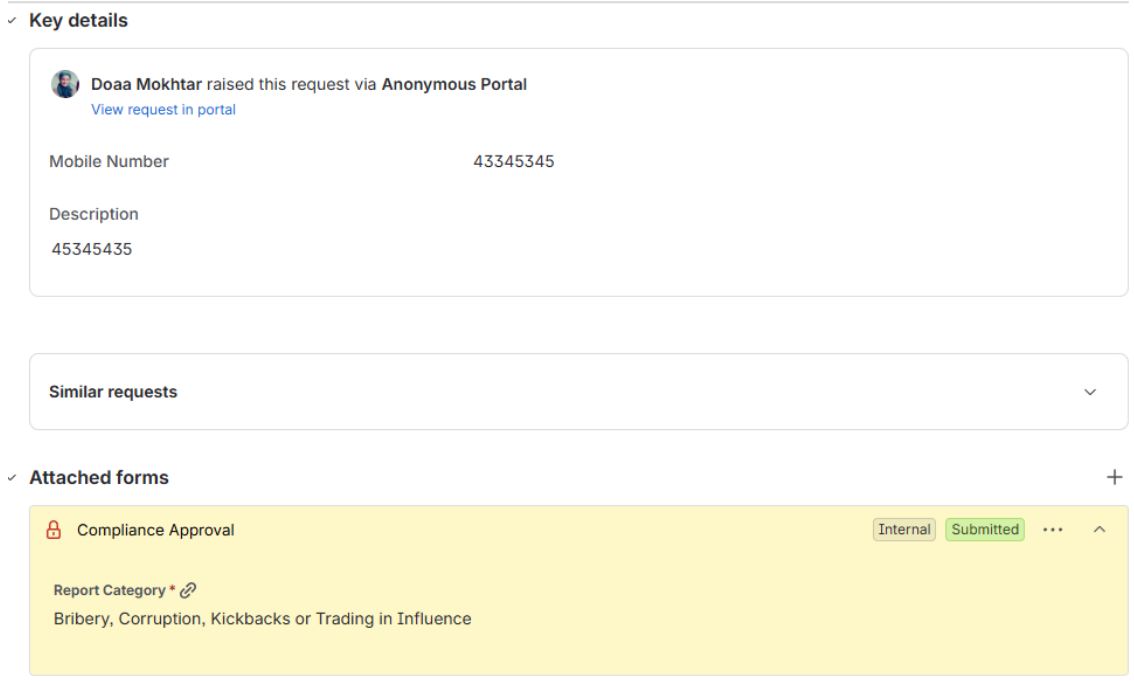

Figure 3 – The form after submission: Report Category recorded

5. Click **Approve** next to the status: the report moves to Under Investigation, is routed to the right team, and that team gets an email.
6. Or click **Reject**: choose a **Rejection Reason** (required) and add a comment; the report closes as Rejected by Compliance.

> **Good to know:** Approve is blocked until the form is submitted. A submitted form is read-only: to change the classification of a report that came Back to Compliance, open the form menu (⋯) and choose Reopen, then submit it again. Investigating Function and Investigation Group cannot be edited directly.

5. For investigation teams

An investigation team sees a report only after the Compliance Manager approves it and routes it to them. You have 2 working days to decide.

1. You receive an email: **New report assigned to your team**. Click Open the report, or find it in the queue.
2. Read the report and its attachments.
3. Click **Approve** next to the status. Choose the **Investigation Outcome** (Substantiated, Partially substantiated or Not substantiated), add a comment and confirm. The report moves to Investigation Approved.
4. Or click **Reject**, choose a **Rejection Reason** (insufficient information, duplicate, out of scope or Wrong category), add a comment and confirm. The report returns to the Compliance Manager as Back to Compliance.

Retaliation reports

- **Human Resources** approves first, with the Investigation Outcome. The report moves to **Pending Employee Relations Approval**.
- **Employee Relations** then approves (the report moves to Investigation Approved) or rejects with a reason (Back to Compliance).

> **Good to know:** Neither Approve nor Reject can be saved without its required field. Teams cannot change the category, the investigating function, the group or the form; if the category is wrong, reject with "Wrong category". Teams cannot see reports assigned to other teams.

> **Screenshot to add:** the Approve screen with Investigation Outcome, and the Reject screen with Rejection Reason.

6. Groups: who sees what and who can do what

Access comes only from group membership; each investigation team sees only the reports routed to it.

Group	Role	Sees	Can do
GRC-Compliance	Compliance Manager	All reports	Fill and submit the Compliance Approval form, Approve or Reject new reports, receives the new-report email

Group	Role	Sees	Can do
Internal Audit	Investigation team	Reports routed to Internal Audit	Approve with an Investigation Outcome, Reject with a reason, receives the assignment email
Human Resources	Investigation team	Reports routed to HR, including Retaliation	Same as Internal Audit; first approval on Retaliation
Employee Relations	Investigation team	Retaliation reports	Second approval or rejection on Retaliation
Health and Safety Representative	Investigation team	Reports routed to Health and Safety	Same as Internal Audit
Information Security	Investigation team	Reports routed to Information Security	Same as Internal Audit
HO-Compliance	Head of Compliance	Escalation emails	Receives an escalation email when a stage passes its 2-working-day target
FollowUP TKT	Oversight	All reports	View and edit; keep this group small

Which team investigates is set by the report category:

Report category	Investigating function	Group
Fraud, Theft, Embezzlement or Asset Misappropriation	Internal Audit	Internal Audit
Bribery, Corruption, Kickbacks or Trading in Influence	Internal Audit	Internal Audit
Money Laundering, Terrorist Financing or Sanctions Concerns	GRC-Compliance Manager	GRC-Compliance
Procurement Manipulation, Collusion, Bid Rigging or Conflict of Interest	Internal Audit	Internal Audit
Harassment, Discrimination, Bullying or Abuse of Authority	Human Resources	Human Resources
Health, Safety, Environmental or Heritage-Protection Breach	Health and Safety representative	Health and Safety Representative
Information Security, Data Protection or Systems Misuse	Information Security	Information Security
Other Regulatory or License Compliance Breach	GRC-Compliance Manager	GRC-Compliance
Retaliation Against a Reporter or Witness	Human Resources	Human Resources, then Employee Relations
Other	Chosen by the Compliance Manager in the form	Follows the chosen function

> **For administrators:** every member needs a Jira Service Management agent licence. GRC-Compliance must also be in the Service Desk Team role of the project, or its members cannot edit the form. Do not add investigation groups to that role, and do not put one person in more than one investigation group unless intended.

7. Service levels and escalation

Each decision stage has 2 working days (16 working hours, Sunday to Thursday, 08:00–16:00 Riyadh time). When a stage passes its target, the Head of Compliance is emailed automatically.

Service level	Clock runs while the report is	Target	When the target is missed
Time to Compliance Decision	Open, or Back to Compliance (restarts on each return)	2 working days	Escalation email to HO-Compliance
Time to Investigation Decision	Under Investigation and Pending Employee Relations Approval	2 working days	Escalation email to HO-Compliance

- Fridays, Saturdays and the hours outside 08:00–16:00 do not count.
- Every automatic email (new report, assignment, escalation) shows only the reference number, the status and who it is waiting on, with a link. It never includes the report's content.
- The time remaining for each service level is shown on the report in Jira.
